1. General questions

What is the purpose of the development?

- Early design phase BIM support
- Detailed BIM support in standard product offer
- Detailed BIM support BIM support in project solution
- Other - *please define:*

Platforms of the development

- BIM objects in REVIT
- BIM objects in ArchiCAD
- IFC files
- Other - *please define:*

Functionality

- Minimal parametrization (size parameters only)
- Detailed configuration possibility
 - dimensions
 - transom, mullion positions
 - inside outside colors
 - glass color
 - sash sizes (in case of not equal double constructions)
 - configuration of profiles (Frame, sash, transom, mullion etc.)
 - installation options –*please provide details:*

- further parameters - *please define in detail:*

- Accessories
 - handle
 - hinges
 - other accessories, please define:

Panels

- double glazing
- triple glazing
- glass thickness(es) please define:

-
- other glazing/panel option, please define:

Language

- English
- Other - please define:

Product representation details

- 3D representation requirement
 - LOD 100
 - LOD 200
 - LOD 300
 - LOD 400
 - LOD 500

Further requests

-
- please define:

2. Data input required/Attachments.

- Documentation in PDF
- 2D documentation in DWG
- 3D documentation (product models) if yes, in which format:
- Other product information sources:
